RECOMENDAÇÕES DE USO:

- Não utilizar produtos de limpeza como: corrosivos, solventes, ácidos ou álcool.
- O sofá não deve ser exposto a fontes de calor (raios solares, aquecedores, radiadores,...) recomendando-se uma distância mínima de 50cm.
- Respeitar as instruções indicadas nos catálogos de tecidos, nomeadamente nos tecidos que contêm tratamento "aqua clean" ou impermeabilização.
- Em caso de nódoas, remover com papel absorvente ou um pano branco, utilizando posteriormente um pano humedecido com detergente neutro.
- Nos produtos em pele natural recomendamos a utilização periódica de creme hidratante, a fim de manter o nível de coloração e evitar estrias ou rachas no revestimento.

Ao cumprir estas recomendações a relação com o seu sofá será mais duradoura e ele agradece.

Garantia

A Lourini garante durante 2 anos a reparação dos seus produtos, nas seguintes condições:

- Validação da garantia efetuada através da fatura original de compra.
- Comunicar a "não conformidade" do produto ao revendedor, isto é, ao estabelecimento onde o adquiriu e será este a informar a LOURINI.
- Reparação da "não conformidade" até 2 anos após a data de compra, mas não a substituição integral do produto.
- Sempre que possível o pedido de assistência deve ser efetuado acompanhado de fotos que permitam uma rápida identificação do problema.

A garantia não inclui

- Defeitos provocados pela má utilização, limpezas incorretas, aplicação de materiais corrosivos, corantes, tintas ou fluidos humanos ou animais.
- Danos provocados no transporte, manuseamento, queimaduras ou cortes provocados por animais ou utilização incorreta do produto.
- Nos produtos em pele, dado tratar-se de um produto natural, não estão englobados as variações de gravado, variações de cor, feridas ou rugas naturais do produto.
- Tratamentos aplicados ao revestimento que não estejam de acordo com as instruções expressas nos catálogos de tecidos.
- Com a normal utilização é frequente o estofado tornar-se mais macio, o qual não deve ser confundido com alterações na firmeza dos materiais.

RECOMMENDATIONS FOR USE:

- Do not use cleaning products, such as: corrosives, solvents, acids or alcohol.
- The sofa should not be exposed to sources of heat (rays of sunshine, heaters, radiators, ...), whereby a minimum distance of 50cm is recommended.
- Respect the instructions indicated in the fabric catalogues, namely for those fabrics that contain an "aqua clean" treatment or waterproofing.
- In case of stains, remove with absorbent paper or a white cloth, later using a humid cloth with a neutral detergent.
- For products in natural leather, we recommend the periodic use of hydrating cream, in order to maintain the level of colour and avoid stretch marks or cracks in the coating.

By complying with these recommendations, the relationship with your sofa will last longer and it will thank you.

Warranty

Lourini guarantees the repair of its products for 2 years, under the following conditions:

- Validation of the warranty, carried out by means of the original purchase invoice.
- Informing the dealer of the product's "non-compliance", that is, the establishment where it was acquired, and it will in turn inform LOURINI.
- Repairing the "non-compliance" within 2 years following the date of purchase, but not fully substituting the product.
- Whenever possible, the service request should be made, accompanied by photos, which allow for a quick identification of the problem.

Warranty does not include

- Defects caused by misuse, incorrect cleaning, the application of corrosive materials, dyes, paints, or human or animal fluids.
- Damages caused during transportation, handling, burns or cuts caused by animals, or the incorrect use of the product.
- For leather products, as we are dealing with a natural product, variations in the engraving, variations in colour, natural sores or wrinkles in the product are not included.
- Treatments applied to the coating that are not in compliance with the instructions stated in the fabric catalogues.
- With frequent use, it is normal that the upholstery becomes softer, which should not be confused with alterations to the firmness of the materials.

RECOMMANDATION D'EMPLOI:

- Ne pas utiliser des produits de nettoyage tels que: corrosifs, solvants, acides ou alcool.
- Le canapé ne doit pas être exposé à des sources de chaleur (rayons solaires, chauffage, radiateurs,...); il est recommandé de garder une distance minimale de 50cm.
- Suivre les instructions indiquées aux catalogues de tissus, en particulier pour les tissus qui contiennent un traitement "aqua clean" ou une imperméabilisation.
- En cas de taches, nettoyer avec un papier absorbant ou un chiffon blanc, en utilisant ensuite un chiffon mouillé avec un détergent neutre.
- Sur les produits en cuir naturel, nous recommandons l'emploi périodique de crème hydratante, afin de garder le niveau de coloration et d'éviter des rainures ou des fentes sur le revêtement.

Si vous suivez les présentes recommandations, la relation avec votre canapé sera plus durable et il vous en remerciera.

Garantie

Lourini garantit pendant 2 ans la réparation de ses produits, sous les conditions suivantes :

- Validation de la garantie effectuée par le biais de la facture originale d'achat.
- Communication de la "non conformité" du produit au revendeur, c'est-à-dire, à l'établissement où vous l'avez acquis, et celui-ci informera LOURINI.
- Réparation de la "non conformité" jusqu'à 2 ans après la date d'achat, mais nous n'effectuons pas le remplacement intégral du produit.
- Toutes les fois qu'il est possible, la demande d'assistance doit être effectuée à l'aide de photos permettant une identification rapide du problème.

La Garantie ne s'applique pas aux cas suivants

- Défaillances provoquées par le mauvais usage, nettoyage incorrect, application de matériaux corrosifs, colorants, teintures ou fluides humains ou animaux.
- Dommages provoqués par le transport, le maniement, les brûlures ou coupures provoquées par des animaux ou usage incorrect du produit.
- Pour les produits en cuir, du fait qu'il s'agit d'un produit naturel, les variations d'imprimés, de couleurs, les blessures ou plis naturels du produit ne sont pas pris en considération.
- Traitements appliqués au revêtement qui ne sont pas conformes aux instructions des catalogues de tissus.
- Il arrive souvent que l'usage normal rende le capitonnage plus souple, ce qui ne doit pas être confondu avec des changements dans la fermeté des matériaux.

Os expositores de tecidos Lourini encontram-se disponíveis nas lojas para sua consulta. Solicite ao vendedor para lhe mostrar e sugerir as opções que vão ao encontro das suas preferências.

Fabrics Lourini exhibitors are available in stores for your query. Ask the seller to show you and suggest solutions to your preferences.

Exposants de tissus Lourini sont disponibles dans les magasins correspondant à votre requête. Demandez au vendeur de vous montrer et suggérer des solutions répondant à vos préférences.

NOVIDADE

NEIVA

MILÊNIO

RINNO

Fundada em 1980 pelo Sr. Comendador Joaquim José Louro Pereira, a J. J. Louro Pereira S.A. começou a sua atividade a fabricar arcazes de madeira. A visão e ambição do seu fundador, resultou numa estratégia de expansão que se mantém até à atualidade.

40 anos volvidos, a J. J. Louro atua hoje no mercado sob as marcas Lourini (mobiliário e sofás) e Lusocolchão (colchões), sendo líder no mercado português ao ganhar a fidelização dos seus produtos com o conforto, funcionalidade e durabilidade sempre a preços competitivos.

Com uma rede de 1000 clientes espalhados pelos 5 Continentes, a responsabilidade no fazer bem feito é cada vez maior. Assim, com os nossos cerca de 1100 colaboradores, desenvolvemos e aperfeiçoamos técnicas e novos conhecimentos que, aliados às mais recentes tecnologias, nos permitem fazer um trabalho de qualidade do qual nos podemos orgulhar. Investimos constantemente em tecnologias de produção mais inovadoras e sustentáveis para otimizar recursos e estabelecemos parcerias de longo prazo com fornecedores nacionais, estimulando a economia e o emprego.

A verticalização da nossa produção resultou em ganhos de eficiência e competitividade. Assim, para além da produção de móveis, sofás e colchões, produzimos também matérias primas e componentes que são integrados nos produtos finais da empresa. É o caso da serração da madeira, ferragens e componentes metálicas (Lomm) e produção e reciclagem de plástico (Sanplax). Produzimos, ainda, a nossa própria espuma (Topfoam) conseguindo, desta forma, controlar a qualidade dos nossos produtos de ponta a ponta. Com toda a nossa cadeia de produção, estamos conscientes com o gasto energético e desperdício da nossa atividade pelo que implementámos as 4 práticas ecológicas – reduzir, reutilizar, recuperar e reciclar – nas espumas, plásticos, madeiras e tecidos.

O nosso foco, esse é sempre o mesmo por parte de toda a equipa: garantir que receba na sua casa o melhor produto ao melhor preço.

Founded in 1980 by National Honor Awarded Mr. Joaquim José Louro Pereira, the company J. J. Louro Pereira S.A. started its activity in wooden chests manufacturing. The vision and ambition of its founder, a huge expansion strategy has started, and continues until today.

40 years later, J. J. Louro today operates in the market under the brands Lourini (furniture and sofas) and Lusocolchão (mattresses), being the leader in the Portuguese market due to the recognition of the products with key factors: comfort, functionality and durability always at competitive prices.

With a network of +1000 customers spread across 5 continents, the responsibility to proceed with high performances is growing every day. With more than 1100 employees, we developed and refined techniques and new knowledge, which combined with the latest technologies, allow us to achieve quality levels that we can be proud of. We constantly invest in information technologies, innovative and sustainable production processes to optimize resources and our long-term partnerships with national suppliers, stimulating the national economy and the job creation.

The verticalization of our production results in efficiency gains and increased competitiveness. Thus, in addition of furniture, sofas and mattresses production, we also produce our own raw materials and components, which are integrated into our final products. This is the case of sawing wood, hardware and metal components (Lomm) and plastic production and recycling (Sanplax). We also produce our own foam (Topfoam), which allow us to control the quality of our products from end to end. With our entire production chain, we are aware of the energy expenditure and waste of our activity. In consequence we have implemented the 4 ecological practices - reduce, reuse, recover and recycle - in foams, plastics, wood and fabrics.

The focus of the entire team is always the same: ensuring the delivery of the best product at the best price at your home.

Fondée en 1980 par M. le Commandeur Joaquim José Louro Pereira, J. J. Louro Pereira S.A. a commencé son activité en fabriquant des coffres en bois. La vision et à l'ambition de son fondateur, a donné lieu à une stratégie d'expansion qui a été maintenue jusqu'à aujourd'hui.

40 ans plus tard, J.J. Louro opère aujourd'hui sur le marché sous les marques Lourini (meubles et canapés) et Lusocolchão (matelas), étant leader sur le marché portugais en fidélisant ses produits grâce au confort, à la fonctionnalité et à la durabilité toujours à des prix compétitifs.

Avec un réseau de 1000 clients répartis sur les 5 continents, la responsabilité à bien faire est de plus en plus grande. Ainsi, avec nos près de 1100 collaborateurs, nous avons développé et affiné des techniques et de nouvelles connaissances qui, combinées aux dernières technologies, nous permettent de faire un travail de qualité dont nous pouvons être fiers. Nous investissons constamment dans des technologies de production plus innovantes et durables pour optimiser les ressources et nous avons établi des partenariats à long terme avec des fournisseurs nationaux, stimulant l'économie et l'emploi.

La verticalisation de notre production a entraîné des gains d'efficacité et de compétitivité. Ainsi, outre la production de meubles, canapés et matelas, nous produisons également des matières premières et des composants qui sont intégrés dans les produits finaux de l'entreprise. C'est le cas de la scierie de bois, des ferrures et des composants métalliques (Lomm) et la production et le recyclage du plastique (Sanplax). Nous produisons également notre propre mousse (Topfoam), ce qui permet de contrôler la qualité de nos produits de bout en bout. Avec toute notre chaîne de production, nous sommes conscients des dépenses et des gaspillages énergétiques de notre activité donc nous avons mis en œuvre les 4 pratiques écologiques - réduire, réutiliser, récupérer et recycler - dans les mousses, les plastiques, les bois et les tissus.

Notre objectif est toujours le même pour toute l'équipe : faire en sorte que vous recevez à votre domicile le meilleur produit au meilleur prix.
